

NICK

I've always been into the paranormal and learning more about the unknown. Having experienced paranormal activity as a kid and watching paranormal shows, I've always wanted to learn more. My 1st investigation was at Eloise Asylum in Westland where the activity seemed to be targeting me. I am a skeptical believer, I believe in the paranormal but I always have an open mind when it comes to investigations. I love videography so I always have my camera with me when investigating because you never know what could be caught (even in night vision).
