

KELLIE

CO-FOUNDER

From a young age I experienced paranormal activity in my childhood home and even now in my current home. Instead of being frightened I gained a healthy curiosity for all things beyond the veil. I've enjoyed being a paranormal investigator for 4 years now and have read and researched many books on the paranormal. I've been blessed to meet some amazing people and have accrued some great evidence in the field. My husband Mike is also on the team which makes it that much more enjoyable.
